

Componenta de Raportare de la nivelul WebX care asigura declararea Foilor de Parcurs / Pontaj pentru Masini / Utiliaje de la nivelul Santierelor.

Asigura componenta de consum real de resurse Utilaje si Transport pentru analiza comparativa aferenta. Pune la dispozitia utilizatorilor posibilitate de analiza a listelor de Foi si generarea FAZ-urilor. Informatiile salvate se regasesc in timp real in PAA EMMA.

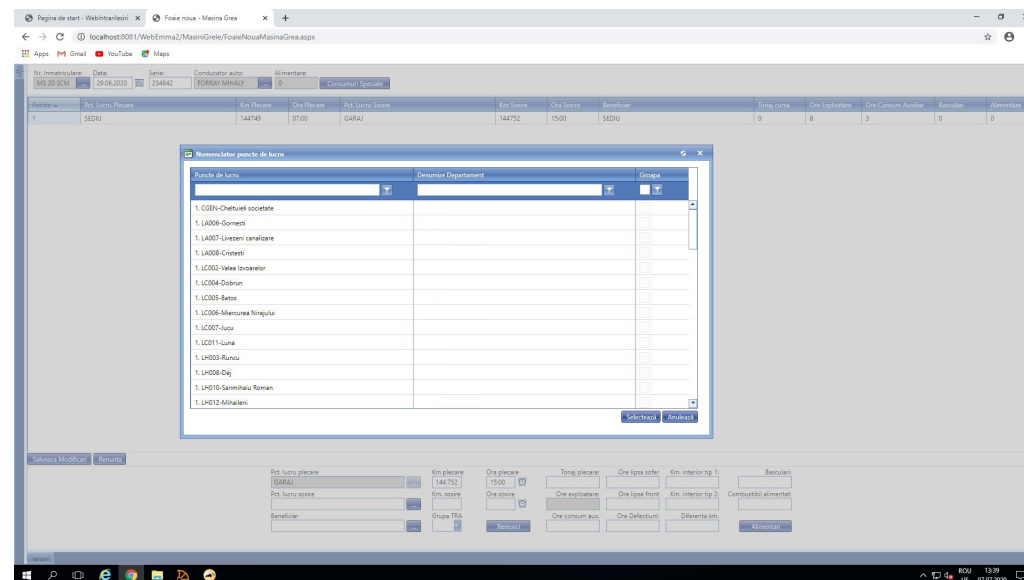

Societati de Constructii

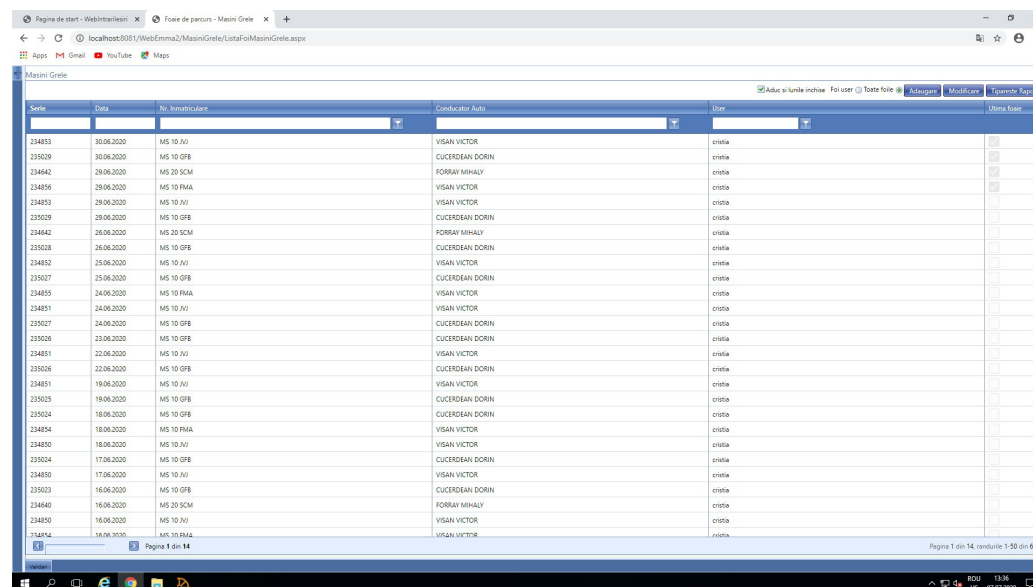

FUNCTIONALITATI

Se pot asocia din nomenclatoarele dinamice, atat punctele de plecare si de sosire, cat si beneficiarii. Pentru fiecare cursa efectuata se inregistreaza valori precum: km parcursi, orele de plecare si de sosire, stationarile si tonajul aferent.

Web EMMA

The screenshot shows a web browser window with the URL `localhost:8081/WebEMMA2/MasiniGreta/FoileNouaMasinaGreta.aspx`. The main form is titled "Nomenclator puncte de lucru" (Work Point Nomenclature). It contains a table with columns for "Puncte de lucru" (Work Points) and "Descriere Departament" (Department Description). The table lists various work points such as "1. CSDV-Chetivod societate", "1. LAD06-Gorosti", "1. LAB07-Livnari canalizare", "1. LAB08-Cristesti", "1. LC003-Valea Ierandari", "1. LC004-Dobrun", "1. LC005-Bates", "1. LC006-Alenicea Niregului", "1. LC007-Juc", "1. LC011-Luna", "1. LH003-Runcu", "1. LH008-Caj", "1. LH010-Samihau Roman", and "1. LH012-Mihaileni". Below the table, there are input fields for "Pct. lucru plecare" (Start work point), "Pct. lucru sosire" (End work point), "Beneficiar" (Beneficiary), "Km plecare" (Start km), "Km sosire" (End km), "Ore plecare" (Start time), "Ore sosire" (End time), "Tonaj plecare" (Start tonnage), "Tonaj sosire" (End tonnage), "Ore exploatare" (Operating hours), "Ore defectiune" (Defect hours), "Km interior tip 1" (Interior km type 1), "Km interior tip 2" (Interior km type 2), "Baculati" (Baculati), and "Combustibil alimentat" (Fuel supplied). There are also buttons for "Salvare Modificari" (Save Modifications) and "Inchidere" (Close).

The screenshot shows a web browser window with the URL `localhost:8081/WebEMMA2/MasiniGreta/ListafMasiGreta.aspx`. The main form is titled "Masini Greta" and displays a table with columns for "Serie" (Series), "Data" (Date), "Nr. Inmatriculare" (Registration Number), "Conducator Auto" (Driver), "User" (User), and "Ultima foie" (Last page). The table lists various vehicle trips, including details such as the series number, date, registration number, driver name, and user name. The table is sorted by "Ultima foie" in descending order. The bottom of the page shows the page number "Pagina 1 din 14" and the total number of records "150 din 632".

SCOP

Componenta de Raportare de la nivelul WebX care permite declararea cantitatilor de activitati executate.

FUNCTIONALITATI

- Cantitatile declarate, se pot asocia:
- la nivelul fiecarui Santier
 - pentru fiecare echipa de lucrari in parte.

AVANTAJE

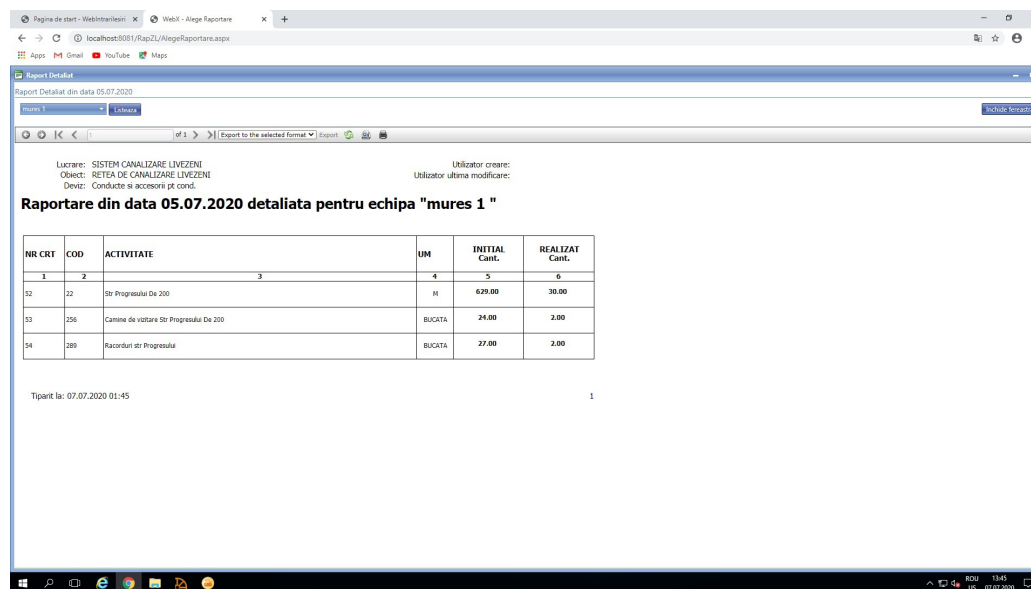

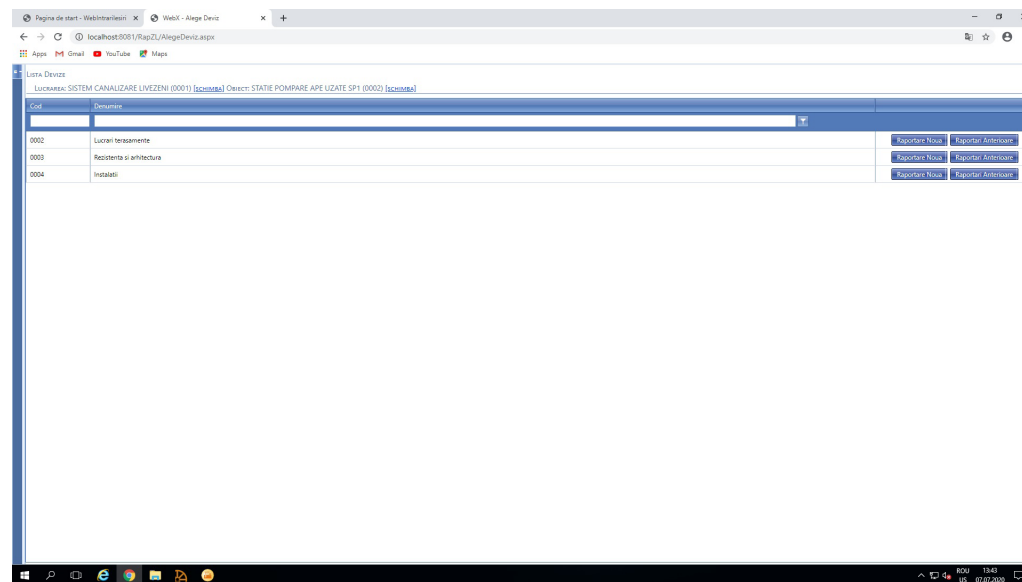

Prin intermediul unei interfete simple si usor de accesat, se asigura o raportare rapida si concisa care sta la baza identificarii stadiului fizic de executie a unei lucrari/ investitii si determinarea consumurilor normate de resurse necesare analizelor comparative.

Informatiile salvate se vor regasi in timp real in PM ProdReal in sectiunea Raportari din Santier.

Beneficiari de Constructii, Finantatori constructii, Societati de Constructii

Web RapZL

SCOP

Componenta de Raportare de la nivelul WebX care asigura declararea intrarilor si consumurilor de stoc de la nivelul gestiunilor de Santier pentru fiecare Lucrare in parte.

AVANTAJE

Asigura componenta de consum real de resurse Materiale pentru analiza comparative aferenta.

Pune la dispozitia utilizatorilor posibilitatea de urmarire a Stocului de material pe Santier si a documentelor care au stat la baza acestuia.

Informatiile salvate se regasesc in timp real in PAA Gestoc.

FUNCTIONALITATI

Permite operarea documentelor primare:

- intrari: Receptia Stocurilor de Matetiale in Santier - Aviz, Factura
- consumuri de materiale: Bonuri de Consum.
